Mobile plastic trolley - for 210 litre transport bin - very robust - custom-made

Product specifications

External dimensions (L x W x H)	680 × 480 × 170 mm
Dynamic load capacity	450 kg
Material	HDPE
Article number	8102-Z-RVS
Weight (kg)	8,2 kg
Color	White
Quantity per pallet	20

Properties

- **Mobile plastic trolley - completely custom-made for 210 litre transport bins on feet**
- **Size 680 x 480 x H170 mm**
- **Made from solid 20 mm plastic sheet material**
- **Recesses are made in the sheet for the feet, so the bin stands securely**
- **Fitted with 4 fixed castors Ø 125 mm**
- **The two fixed castors on the long sides are 10 mm higher than the other two wheels**
- **Thanks to this construction, uneven surfaces or thresholds are crossed effortlessly, and the Mobile plastic trolley is highly manoeuvrable - even able to turn around its own axis**
- **This avoids the use of vulnerable swivel castors**
- **Widely used in the food sector - for heavy-duty applications**
- **Particularly practical and designed for a long service life**

Description

Mobile plastic hygiene trolley. Custom-made for 210 litre transport bins. Fitted with 4 fixed castors - with nylon wheels Ø 125 mm, 2 of which are raised. This makes the Mobile plastic trolley particularly manoeuvrable - even able to turn around its own axis. This construction avoids the use of vulnerable swivel castors.

The base is made of solid plastic (20 mm) and is produced exactly to size for the load carrier. Other wheel versions such as galvanised wheel forks, a different diameter, a different tread, etc. are of course possible. Ask our product specialists about the options.

Indestructible base for use with transport bins on feet.
