Nestable retention bin - drip tray (light) 20 liter - 600 x 400 x H 120 mm

Product specifications

External dimensions (L x W x H)	600 × 400 × 120 mm
Capacity	20 liter
Handles	Closed
Sidewalls	Closed
Material	Recycled HDPE
Article number	99.5011
Weight (kg)	1 kg
Temperature range	-30°C to +80°C
Color	Black
Bottom	Closed, smooth
European Article Number	7424901325322

Properties

Nestable containment tray - drip tray with dimensions of 600 x 400 x H 120 mm and a capacity of 20 liters.

It has exceptional nestability, making it extremely space-saving.

Designed with closed side walls, bottom, and handles for optimal protection and ease of use.

Featuring rounded corners and smooth walls for a streamlined design and easy maintenance.

Description

The nestable containment tray – drip tray with dimensions of 600 × 400 × H 120 mm and a capacity of 20 liters is a versatile solution that excels in space efficiency. Its exceptional nestability allows these trays to be stored very compactly, resulting in significant space savings when they are not in use.

This tray is designed with closed side walls, a sturdy base, and practical handles, making it easy to handle while providing optimal protection for the stored contents. The rounded corners and smooth walls not only contribute to a streamlined design but also make cleaning easier, allowing dirt and liquids to be removed effortlessly.

Whether for storing liquids, managing leaks, or organizing various materials, this nestable containment tray – drip tray is a reliable companion. Its combination of robustness, ease of use, and space-saving features makes it a valuable addition to any household, warehouse, workshop, or industrial environment where efficiency and order are essential.
