Properties

With plastic rear tube, so that the bins at the back cannot slide out of the trolley

The bin trolley is provided with four stainless steel swivel castors with nylon Ø 100 mm wheel, of which two braked, with stainless steel wheel fixing material

Description

This highly hygienic plastic tray trolley has eight slots for Euro norm trays. The trolley comes with eight Euro norm stacking trays measuring 600 x 400 x H120 mm. The tray trolley is equipped with four stainless steel swivel casters with nylon wheels ? 100 mm, of which two are lockable. The wheels are attached with stainless steel fasteners. At the rear, the tray trolley has a rear bar to prevent the plastic trays from falling out at the back. The tray trolley is made of corrosion-resistant PVC plastic, making it very easy to clean. Suitable for use in a hygienic or damp environment. It is compactly packaged and delivered in a box. Easy to assemble without tools.
