| Color | Black |
| Bottom | Closed, smooth |
| European Article Number | 7424907398375 |
| Load capacity (kg) | 5 |
| Quantity per pallet | 272 |
| Stacking height (mm) | 125 |

## Properties

- **Plastic case with hinged lid and case handle on the front. Dimensions 300 x 200 x H 133 mm including lid. Part of our BLACK LINE**
- **The lid is hinged and fitted with two snap-slide closures**
- **The closures snap shut when the lid is closed. To open, the lid is released by sliding the closures outwards**
- **When opened horizontally, the lid is removable if no hinge reinforcements are fitted**
- **The cases can be stacked with each other and also with other Euronorm bins, with or without lids**
- **Fully closed design - both the walls and the base**
- **With closed handgrips - for optimal use of internal volume and protection against dust and other external influences**
- **The base is completely smooth and flat - for easy cleaning**
- **Food-safe and hygienically designed**
- **Options: printing - hinged lids in a different colour - hinge reinforcements**

# Description

**Case from the BLACK LINE**

**Plastic case in Euronorm format** (300 x 200 x H 133 mm - 5 liter). The case consists of a stacking bin, a hinged lid with two **snap-slide closures** and a case handle on the front, i.e. the long side. Finished in **black** and part of our **BLACK LINE**.

**Application**

The BLACK LINE is mainly used for applications where an **exclusive appearance** is required. Catering, event catering and airport catering are good examples. The range is also used for the sale and distribution of premium meat and fish products.

The BLACK LINE is also particularly suitable for use as promotional or presentation packaging. In particular, **lidded bins in case format** are widely used as **outer packaging for corporate gifts**, with the contents varying considerably.

The BLACK LINE range is extensive and includes not only stacking bins, but also plastic pallets and pallet boxes. The range is regularly expanded.

**Product details**

Thanks to its **standardised dimensions** (300 x 200 mm), the case can be stacked with all other **Euronorm stacking bins** and is **perfectly compatible with standardised pallets**, **mobile plastic trolleys** and **roll containers**.

The case is food-safe, **hygienically designed** and fitted with two **closed handgrips** - for optimal use of the internal volume and to protect the contents as effectively as possible from external influences. Fitted with a **smooth, easy-to-clean base** on the underside.
