## Description

Plastic case with dimensions of 400 x 300 mm and a height of 190 mm. The case is stackable with other Euro norm cases and stacking crates. Due to its standardized dimensions, the case is perfectly compatible with a standardized pallet, roll container, or mobile base. The case is composed of a stacking crate with a hinged lid and two snap-slide closures. This ensures a secure closure during transport, allowing the cargo to be transported dust-free and safely. Seals and label holders are supplied as accessories with the cases.
