

Plastic Flexibeam trolley - 1380 x 600 x H1450 mm - horizontal - grey

Product specifications

External dimensions (L x W x H)	1380 x 600 x 1450 mm
Material	PVC
Article number	KS-RECR.FLEXIBEAM.HOR
Weight (kg)	15 kg
Temperature range	-40°C to +40°C (up to +80°C for short-term use during cleaning)
Color	Grey

Properties

Standard trolley dimensions: 138 x 60 x 145 cm (L x D x H)

Equipped with four plastic swivel castors, two of which have brakes

Description

The **horizontal plastic Flexibeam trolley** is designed for organised storage and easy transport of Flexibeams and related materials. Its practical layout combines the storage of different types of equipment in one compact and mobile solution.

The upper section of the trolley provides space for storing Flexibeams horizontally. This keeps the Flexibeams neatly organised and easily accessible whenever required. The lower section provides space for **three 600 x 400 x H420 mm storage bins**, including our item **30.642.RDH.1**. These bins can be used to store additional materials and accessories.

With standard dimensions of **1380 x 600 x H1450 mm**, the Flexibeam trolley offers considerable storage capacity while making efficient use of the available floor space. The trolley is equipped with **four plastic swivel castors**, two of which have brakes. This makes it easy to move the trolley and securely position it wherever required.

The combination of a practical layout, mobile design and durable plastic construction makes this Flexibeam trolley ideal for environments where materials are regularly used, stored and transported. Flexibeams and other equipment can therefore be kept organised and readily available for use.
