- **Smooth, closed bottom frame, ensuring exceptional hygiene.**
- **Wheels with sturdy wheel plate and stable 4-point attachment.**
- **Wheel forks, axles, and fastening materials are galvanized.**
- **Suitable for loading goods of varying sizes (buckets, boxes, etc.).**

Description

Roll container / Transport roller (595 x 395 x H 210 mm) with particularly robust grid frame. Hygienic design with welded, closed bottom. The bottom is therefore smooth and without ribbed structure, ensuring optimal hygiene. Suitable for stackable containers of 600 x 400 mm or two pieces of 400 x 300 mm. Thanks to the frame, it is also suitable for containers, buckets, or boxes in different sizes. Equipped with 4 stainless steel swivel castors with polyamide wheels Ø 100 mm. Maximum load capacity 300 kg. Other wheel configurations such as galvanized wheel forks, fixed castors, other diameters, other treads, etc. are of course possible. Ask our product specialists about the possibilities. An excellent roll container when high hygiene requirements are demanded.
