Large-format plastic pallet size 2000 x 1200 x H 150 mm

Made from ECO regranulate, exceptionally impact-resistant and durable

Suitable for non-food items and packed food products

The D3-DUO ECO is based on the D3 ECO pallet, with 7 mm rims all around (alternative: without rims)

In this version, two D3 ECO pallets are sustainably welded together

The D3-DUO pallet is equipped with 5 pallet runners in the longitudinal direction

Extremely strong and robust, making it the ideal solution for large-format loads

RFID technology can be integrated into the pallet without any issues, even retrofitted. The RFID tag holder provides long-lasting protection against external influences

D3 pallet runners are chamfered on both sides for smooth handling with pallet trucks

The raised rims around the D3 prevent the load from sliding off and prevent empty pallets from shifting against each other

The D3 pallet is extra strong thanks to an angled connection between the pallet runners and the blocks

This minimises breakage at these sensitive points

The stated dynamic load is based on an evenly distributed load and a wide forklift tine position

General

The dimensions of custom-made pallets are aligned with the customer's requirements as much as possible. However, the existing pallet construction is decisive for the welding work. As a result, the achievable dimensions may deviate by a few centimetres.
