## Properties

Plastic playpen - dimensions 1220 x 940 x H 870 mm  
- colour grey with dark grey accents

Certified according to NEN-EN 12227

Fully moisture-resistant and corrosion-free

Highly chemical-resistant - good resistance to chlorine

Suitable for swimming pools, leisure parks and wet play environments

Sturdy and stable construction - particularly impact-resistant

Relatively lightweight and easy to move

Very easy to clean - with water and soapy water

Fitted with a comfortable, plastic-coated foam cushion

Option: colour green with dark grey accents

## Description

Plastic playpen in a common and practical format (1220 x 940 x H 870 mm). Meets all safety requirements and is certified according to the **NEN-EN 12227 standard**. Suitable for both private and professional use, for example in swimming pools.

Because the playpen is made entirely from plastic, it is completely corrosion-free and therefore ideal for use in wet environments such as leisure pools. The sturdy construction provides a stable and reliable play environment, while the relatively low weight makes the playpen easy to move. Thanks to its smooth and practical design, the playpen is also **quick and easy to clean**. This makes the playpen particularly suitable for environments where hygiene plays an important role.
