Description

A sealed (enclosed) 868 MHz RFID tag / transponder for quick and easy identification of load carriers and the related data, such as contents or owner. The RFID tags can be inserted into the upper rim of the fish box or fillet box during production. The boxes can also be fitted with sealed transponders afterwards. Previously installed transponders can also be replaced easily in these boxes.
The following boxes have a slot on two sides for sealed RFID tags:
83860300 - Euro fish box 18 kg / 32 litre
83861310 - Euro fillet box 18 kg / 32 litre
81670301 - Fish box 20 kg / 35 litre
81670300 - Low fish auction box 20 kg / 35 litre
81700300 - Fish auction box 40 kg / 60 litre
81701310 - Fish box 40 kg / 60 litre
