

SALE - Stacking bin- 600x400xH80mm - grey

Product specifications

Weight (kg) 1,01 kg

External dimensions (L x W x H) 600 x 400 x 80 mm

Temperature range -40°C to +70°C

Capacity 14 liter

Color Grey

Material HDPE

Bottom perforated, reinforced

Sidewalls Perforated

Handles Open

Max. load capacity per box 15 kg

Internal dimensions (L x W x H) 567 x 367 x 74 mm

Properties

Stackable Crate Features:

Coarsely perforated bottom and closed side walls

Closed handles for easy lifting

Reinforced bottom for extra strength

Ideal for universal use

Size: 600 x 400 x H80 mm

Color: Grey

Remaining Stock:

444 units available

Description

Plastic stacking crate in Euro standard size 600 x 400 mm. The gray stacking crate is made of high-quality food-safe plastic and features a reinforced bottom. Even under heavy loads or extreme conditions, the deflection of the bottom is almost negligible. The stacking crate has a perforated bottom and closed side walls. This makes the stacking crate ideal for use in the (industrial) food sector, the textile industry, the hospitality industry, and bakeries. Thanks to the Euro standard dimensions, the stacking crate can be combined with standardized stacking boxes, crates, pallets, mobile bases, and roll containers without wasting space.
