

Stack-nestable crate type DuoLevel - 600 x 400 x H 153 mm - fully perforated - open handgrips - orange

Product specifications

External dimensions (L x W x H)	600 × 400 × 153 mm
Internal dimensions (L x W x H)	552 × 352 × 135 mm
Handles	Open
Sidewalls	Perforated
Material	HDPE
Article number	30.816.0117
Weight (kg)	1,28 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Orange
Bottom	Perforated, smooth

Properties

Smart stack-nestable crate type DuoLevel.
Dimensions 600 x 400 x H 153 mm

With low and high stacking positions - for low bakery products up to 75 mm and higher loads up to 135 mm

In the low position (nested), a volume saving of up to 40% is also achieved

With perforated walls and base for optimal ventilation

Fitted with 4 open handgrips for easy handling

Food-safe and easy to clean

Options: printing - barcode labels - transport trolley

Description

Stack-nestable plastic crate **type DuoLevel** in Euronorm format (600 x 400 x H 153 mm). Finished in orange for our bakery product range. In the low stacking position, the DuoLevel crate allows **flat loading up to 75 mm** for low bakery products, while the high stacking position provides a **higher loading height of up to 135 mm**, for example for bread rolls.

The DuoLevel crate features perforated side walls and a perforated base - for optimal **ventilation**, helping to reduce condensation. The crate is food-safe, hygienically designed and fitted with four open handgrips for easy handling.

Application

The **DuoLevel crate** is used for both **flat bakery products** that are not stacked and **stacked products**. In the high stacking position, the usable internal height is approximately 135 mm - for example for loose bread rolls. In the low stacking position, a compartment with a usable height of **75 mm** is created - ideal, for example, for sugared Berliner doughnuts or donuts.

The DuoLevel owes its name to this **dual loading option**. This smart loading method helps protect the **quality** of bakery products as effectively as possible.

In addition to efficient loading, the DuoLevel crate provides a significant **40% volume saving** when nested in the low stacking position. This allows valuable space in shops, warehouses and during transport to be used efficiently.
