Description

Plastic stacking bin in Euronorm format (300 x 200 x H 175 mm - 7,6 liter). Designed in black and part of our BLACK LINE series; a product line used especially for applications where an exclusive appearance is required. Catering, event catering and airport catering are good examples. This product line is also used for the sale and supply of exclusive meat products and fish products. The product line is very extensive and includes not only stacking bins, but also plastic pallets and pallet boxes; it is also regularly expanded. Due to its standardised dimensions (300 x 200 mm), the stacking bin can be stacked with all other Euronorm stacking bins and is perfectly compatible with standardised pallets, mobile plastic trolleys or roll containers.

The stacking bin is food-safe, has a hygienic design and is fitted with two closed handgrips for optimal use of the bin's volume and to protect the contents as effectively as possible against external influences. Designed with a hygienic, smooth base (underside).

The stacking bin is also suitable for fitting hinged lids, optionally with snap closure. The lids are of course also available in black. Other colours are also possible to keep your own product lines separate. We call this "colour coding".

Everything for optimal logistics.
