## Description

Stacking crate (800 x 300 x H 415 mm) as custom-made. The plastic stacking crate is composed of two parts that are assembled together. It is based on a stacking crate 800 x 600 mm, which is narrowed down. Custom-made stacking crates are frequently used as storage and transport containers for delicate goods, with or without protective interiors. Both space-saving and optimal product protection are important factors in their use.
