Stacking bin - 800 x 600 x H 415 mm - white (reinforced base)

Product specifications

External dimensions (L x W x H)	800 × 600 × 415 mm
Internal dimensions (L x W x H)	720 × 515 × 400 mm
Capacity	140 liter
Handles	Closed
Sidewalls	Closed, reinforced
Material	HDPE
Article number	93.9014
Weight (kg)	11,4 kg
Temperature range	-30°C to +80°C
Color	White
Bottom	Closed, reinforced

Properties

- **Dimensions: 800 x 600 x H 415 mm**
- **Capacity: 140 liters**
- **Closed container**
- **Handles integrated into the upper edge**
- **Bottom reinforced and equipped with ribs**

Description

The Plastic Stackable Euro Container Euronorm, also known as a transport container, measuring 800 x 600 x H 415 mm and boasting a generous capacity of 140 liters, offers a versatile and durable solution for various transportation and storage needs. This closed container is designed with handles seamlessly integrated into the upper edge, making them easy to handle during loading and unloading.

One of the notable features of this stackable container is the additional reinforcement at the bottom, complete with ribs, which enhances structural integrity and provides extra stability during transport. This makes the container ideal for transporting heavy loads and stacking multiple containers on top of each other without the risk of deformation or damage.

With a capacity of 140 liters, this container provides ample space for storing and transporting a wide range of goods, from smaller items to larger objects. Whether it's for industrial applications, warehouse management, or distribution logistics, this Plastic Stackable Euro Container Euronorm is a reliable choice for efficient and safe transportation and storage.
