Stacking bin for baking tray - 655 x 450 x H 150 mm

Product specifications

External dimensions (L x W x H)	655 × 450 × 150 mm
Internal dimensions (L x W x H)	628 × 422 × 132 mm
Handles	Open
Sidewalls	Perforated
Material	PPC
Article number	30.7-115.0117
Weight (kg)	1,92 kg
Temperature range	-30°C to +80°C
Color	Orange
Bottom	Perforated, reinforced
Quantity per pallet	45

Properties

The stacking bins for baking trays are suitable for storage and transport of baking trays (600 x 400 mm)

Description

The stackable tray box, also known as a baking sheet box, measures 655 x 455 x H 150 mm and has a capacity of 29.4 liters. This box was designed to meet food safety standards and features a perforated and reinforced bottom as well as coarsely perforated side walls, all in a vibrant orange color. With its four open handles, it is easy to handle and transport.

Due to its specific dimensions and the larger perforations in the side walls and bottom, this stackable box is particularly well-suited for storing and transporting baking sheets. The larger perforations promote better air circulation, allowing the baking sheets to breathe properly and be stored optimally without moisture buildup. The sturdy construction and well-thought-out design elements make it possible to stack multiple crates efficiently and save valuable storage space.

Whether in professional bakeries or at home in the kitchen, this stackable box for baking sheets offers a practical solution for the organized storage and safe transport of baking utensils. It promotes a smooth workflow and ensures that baking sheets can be stored and moved safely and in an orderly manner.
