Stacking crate R126X - 600 x 400 x H 265 mm - Heat resistant

Product specifications

External dimensions (L x W x H)	600 × 400 × 265 mm
Internal dimensions (L x W x H)	566 × 366 × 248 mm
Capacity	51.5 liter
Handles	Open (four openings)
Sidewalls	Perforated, extra reinforced
Material	PPC
Article number	30.126X.0110
Weight (kg)	2,6 kg
Temperature range	+5°C to ca. +105°C
Color	Grey
Bottom	Perforated, extra reinforced
Quantity per pallet	32

Properties

- **Heat-resistant stacking crate in Euro standard size (600 x 400 x H 265 mm - 51.5 liters) from the R-Series**
- **Very robust and food-grade**
- **Coarsely perforated side walls and bottom**

Description

Heat-resistant stacking crate in Euro standard size (600 x 400 x H 265 mm - 51.5 liters) from the R-Series. Very robust food-grade crate with coarsely perforated side walls and bottom. Equipped with 4 open handles for optimal handling. The bottom is extra reinforced. The entire crate is made of thick-walled PP-TV and is highly temperature resistant from +5°C to approximately +105°C (short-term). Extremely suitable for processes in the food industry with high temperatures.
