Description

The COMBI crate, a stack-nestable Euronorm crate measuring 600 x 400 x H 150 mm and with a capacity of 26.8 liters, comes in a fully enclosed design. This crate is designed to be stackable and nestable, equipped with two open handles for easy use.
The outstanding feature of the COMBI crate is its exceptional stability and safety during stacking, resting securely on all four sides of the underlying crate. The utilized stacking lugs play a crucial role, ensuring precise centering of the crate and high resistance to impacts.
An additional advantage of the COMBI crate is its precise sizing, preventing jamming when nested, allowing for hassle-free stacking without any issues.
These versatile crates find their primary application in the intensive (poultry) meat sector due to their reliability and essential properties for logistics, storage, and transportation needs within this sector.
