Description

The stack nest container with dimensions of 600x400x400 mm is a versatile and durable solution for storage and transport. Its 180° rotatable design allows the container to be easily stacked when filled and nested when empty, saving space and costs in reverse logistics. Made of HDPE, it features a solid base and walls, making it ideal for automated food industry processes. The ergonomic handles ensure comfortable and safe handling, while the smooth surfaces make it easy to clean.
