Stack-nestable crate - 620 x 500 x H 360 mm - fully perforated - grey

Product specifications

External dimensions (L x W x H)	620 × 500 × 360 mm
Internal dimensions (L x W x H)	532 × 432 × 350 mm
Capacity	78 liter
Handles	Open
Sidewalls	Perforated
Material	HDPE
Article number	56.0614
Weight (kg)	2,23 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Perforated

Properties

- **Stack-nestable crate (620 x 500 x H 360 mm - 78 liter) - fully perforated**
- **Stackable and also nestable when rotated 180°**
- **Provides a volume saving of approximately 65% when nested**
- **The perforations in the walls and base ensure good ventilation of the contents and help prevent condensation and mould formation**
- **User-friendly thanks to the rounded design**
- **Food-safe and easy to clean**
- **Suitable for approx. 12 loaves of bread in an upright position**
- **Options: printing (on both short sides - below the handgrip)**

Description

Stack-nestable plastic crate (620 x 500 x H 360 mm - 78 liter) in a fully perforated design. A particularly **robust crate** for use in bread factories, bakeries and laundries. Thanks to the minimal ribbing on the walls and underside, the crate is highly hygienic and **easy to clean**.

The perforations in both the walls and the base are smoothly finished on the inside of the crate - for **optimal ease of use**. At the same time, the **perforations** provide optimal **ventilation of the contents**, helping to reduce condensation.

Thanks to the stack-nestable design, a **volume saving of approximately 65%** can be achieved. This allows efficient use of space wherever it is most important, such as in retail areas, production locations and during transport.
