Stacking nestable crate - Euronorm - 600 x 400 x H 240 mm

Product specifications

External dimensions (L x W x H)	600 × 400 × 240 mm
Internal dimensions (L x W x H)	545 × 350 × 230 mm
Capacity	44.5 liter
Handles	Open (two openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.824.02
Weight (kg)	2,3 kg
Temperature range	-30°C to +80°C
Color	Black
Bottom	Perforated, reinforced
Quantity per pallet	84

Properties

- **Very good support and centring when the bins are stacked**
- **Bins do not slide apart when stacked**
- **Bins and stackable and nestable by rotating a half turn**

Description

COMBI crate / stack-nestable Euro-standard crate (600 x 400 x H 240 mm - 44.5 liters) in a fully perforated design. The COMBI crate is stackable and nestable, equipped with two open handles. COMBI crates stack particularly stable and safely because they rest on all four sides on the underlying crate. The stacking lugs used center the crate well and are particularly impact-resistant. Additionally, COMBI crates are dimensionally stable, preventing them from jamming when nested.
