Description

The stack nest crate with dimensions of 600x400x300 mm is a versatile and durable solution for storage and transport. Its 180° rotatable design allows the crate to be easily stacked when filled and nested when empty, saving space and costs in reverse logistics. Made of HDPE, it features perforated walls and base for ventilation, making it ideal for use in the food industry. The ergonomic handles ensure comfortable and safe handling, while the smooth surfaces make it easy to clean.
