Description

Transport trolley / Broban dolly (690 x 490 x H 180 mm) in a galvanised steel version. Specially developed mobile metal trolley for **Broban crates**. Widely used for supplying shops with bread and bakery products and for product presentation in retail environments.

Design

A **particularly robust** transport trolley made from galvanised steel for a **long service life**. Designed for use with Broban crates for bread and bakery products. Fitted with bearing-mounted plastic castors with thick rubber tread for excellent **rolling comfort** and **low-noise** operation.

The trolleys can be stacked conveniently with each other. They can also be stacked inside a Broban crate, preventing the trolley from moving around loose in the loading area during transport.

The trolley fits completely **underneath** the Broban crates, ensuring optimal use of **retail space** and **warehouse space**. The **loading space** of lorries can also be used particularly efficiently with these trolleys.
