Super-wide-mouth drum 17 litre

Product specifications

External dimensions (L x W x H)	250 mm
Capacity	17 liter
Material	HDPE
Article number	14.6945
Weight (kg)	1,2 kg
Color	White

Properties

- **Super-wide-mouth drums are suitable for stacking and palletising**
- **With extra large Ø 295 mm filler opening**
- **UN-approved for packaging groups I, II and III**
- **Super-wide-mouthed drums are air-, vapour- and liquid-tight due to screw lid with rubber gasket**

Description

Super wide-mouth container, 17 liters, Ø 338 × H 250 mm. A defining feature of super wide-mouth containers is the extra-large filling opening; this model has an opening of Ø 295 mm. The container is airtight, vapor-tight, and liquid-tight thanks to the hermetically sealing screw lid with a rubber inner ring. It is made of food-grade plastic and is certified with a UN approval for packaging groups I, II, and III, making it suitable for the storage of highly dangerous substances. Super wide-mouth containers are easy to stack and palletize and can also be used as a water container. They are ideal for use as feed containers for storing animal feed. A 17-liter super wide-mouth container is suitable for approximately 6 kg of animal feed.
