Description

Discover our 400 litre transport bin, equipped with 2 robust pallet runners and stainless steel rim reinforcements.
This transport bin is designed for efficient handling and safe transport of goods - especially high-care products and food products. With a substantial capacity of 400 litres, this bin offers ample space. The addition of two robust pallet runners ensures smooth movement and stable positioning during transport.
Thanks to its seamlessly smooth construction, this transport bin is exceptionally easy to clean and is the ideal bin for situations where high hygiene standards are required.
