Description

Grey tray basket (570 x 500 x H 109 mm). Barbs on the pins secure the trays and prevent large sheets from flapping. The tray basket has one lowered side, allowing trays to protrude on one side. This allows larger trays to be rinsed as well. The grey tray basket features a coarse mesh bottom and open side walls for optimal rinsing results. The bottom is reinforced and suitable for use in basket transport machines with transport hooks. The tray basket is composed of two parts that are durably connected to each other. The connection seam is welded.
