Product specifications

External dimensions (L x W x H)	600 × 400 × 13 mm
Material	Comp 13/14
Article number	53.VG.600.400
Weight (kg)	1,59 kg
Temperature range	Depending on the entire cleaning process, ask our product specialists for the exact specifications.
Color	Black
Bottom	Open

Properties

- **Product tray made of reinforced polyamide in Euronorm size 600 x 400 mm, but also available fully customized.**
- **For a trouble-free and scratch-free cleaning of high-quality parts.**
- **Also extremely suitable for safe transport and trouble-free storage of these components.**
- **Significant cost savings as there is no need for repacking between cleaning, transport, and storage.**
- **Flexible layout of the product tray using plastic pins and strips.**
- **The layout of the grid-shaped base plate can be variably designed and changed at any time.**
- **Safe positioning of metal parts thanks to the custom layout.**
- **Optionally available with stacking pins for stable stacking of multiple Variogrid trays.**
- **The open construction provides maximum accessibility for the cleaning agent.**
- **The Variogrid is very stable and has a high load capacity, and moreover, it has a low own weight.**
- **Made of reinforced polyamide and suitable for many chemicals. Testing under practical conditions is necessary. Ask our product specialists for the exact specifications and possibilities.**
- **Various parameters play a role in temperature resistance. Ask our product specialists for the exact specifications.**
- **The Variogrid product tray is also easy to integrate into existing systems, such as metal wire baskets, KLT containers, and steel boxes.**
- **Available with handles in multiple sizes for easy and practical handling.**
- **Due to the Euronorm size 600 x 400 mm, it is stackable on all common Euronorm stacking containers and crates.**
