VDA R-KLT Stacking bin (6429) - 594 x 396 x H 280 mm (reinforced base)

Product specifications

External dimensions (L x W x H)	594 x 396 x 280 mm
Internal dimensions (L x W x H)	544 x 364 x 242 mm
Capacity	48 liter
Handles	Closed
Sidewalls	Closed
Material	PP
Article number	4153.760.661
Weight (kg)	3 kg
Temperature range	-30°C to +80°C
Color	Blue
Bottom	Closed, extra reinforced

Properties

Integrated label holders on all four sides for easy identification.

Smooth bottom with drain holes for easy cleaning and extinguishing water escape.

Resistant to oils, acids, and alkalis.

Optional lid available for additional product protection.

VDA standardized for use in the automotive and supplier industry.

Designed for automated handling.

High dimensional stability and robustness.

Composite stacking base for efficient stacking.

Smooth inner surfaces make the container easy to clean.

Low tare weight for increased effective volume.

Ergonomic handles for easy handling.

Reinforced outer walls to prevent deformation.

External dimensions: 594 mm x 396 mm x 280 mm.

Net weight: 2.97 kg.

Usable volume: 48 liters.

Maximum static load: 600 kg.

Maximum dynamic load: 300 kg.

Made from polypropylene (PP).

Temperature range: -10 °C to 50 °C.

Description

The VDA R-KLT stacking container (6429) - 594 x 396 x H 280 mm (reinforced bottom) is a robust and practical container designed with dimensions of 594 x 396 x H 280 mm and featuring a reinforced bottom. This stacking container is specifically crafted to meet the demands of various industrial environments. With its sturdy construction and reinforced bottom, this container offers excellent protection for storing and transporting heavier and bulkier goods.

The size of 594 x 396 x H 280 mm makes this stacking container highly suitable for various applications across different sectors. Its closed design without bottom holes ensures complete sealing, while the reinforced bottom provides additional stability for securely storing a variety of materials. Additionally, this stacking container is designed with receptacles for automated handling, enabling efficient manipulation, and comes equipped with integrated label holders for clear content identification.

Due to its versatility and durable build, the VDA R-KLT stacking container (6429) is an ideal choice for various industries. It is often utilized in sectors such as the automotive industry, where a reliable and sturdy container is required for the safe and efficient storage and transportation of heavier components.
