Product specifications

External dimensions (L x W x H)	1200 × 1000 × 1245 mm
Internal dimensions (L x W x H)	1110 × 910 × 1060 mm
Capacity	1250 liter
Sidewalls	Closed
Material	HDPE
Article number	4401.350.DUO
Weight (kg)	75 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
Max. load capacity per box	500 kg
Max. static stacking load	3000 kg
Max. dynamic stacking load	1000 kg

Properties

- **BIG BOX plastic pallet box with hinged drop door on one long side - fitted with three sledes**
- **In this DUO variant, two boxes are mounted on top of each other - the inside can be finished with a weld**
- **Dimensions 1200 x 1000 x H1245 mm - 1250 liter**
- **Drop door size 740 x 315 mm (w x h)**
- **The hinged drop door is made entirely of plastic (including hinges and closures)**
- **The door is opened and locked by means of two snap-slide closures**
- **Using the drop door significantly reduces the lifting threshold (by more than 30 cm)**
- **The drop door can also be operated when the boxes are stacked**
- **Closed side walls, reinforced base - for safe storage**
- **Suitable for direct contact with unpackaged food products (food-proof)**
- **Unique design with convex panels for up to 10% more volume than comparable pallet boxes**
- **Very robust pallet box - widely used, with various options**
- **Options: Lid - print - QR codes and barcodes - divider panels - 2 fixed and 2 swivel castors - stainless steel castors (white nylon) - check taps - screw plugs - loose sledes**

Description

The BIG BOX is an especially robust plastic pallet box that is also highly versatile. Thanks to its strong product features, this pallet box series has been launched in many different versions - and very successfully. The product variant shown here is a double-height version, meaning that this custom-made box is composed of two pallet boxes that are mounted very solidly on top of each other - exactly to the required height. In addition, this version is fitted with a hinged drop door on one long side. This plastic drop door significantly lowers the lifting threshold. Loading and emptying the box is therefore made much easier. This makes it user-friendly and particularly efficient during daily order-picking activities or in warehouses. Even when stacked, it works extremely well, as the drop door can also be operated in that position.
