Product specifications

External dimensions (L x W x H)	1200 × 1850 × 955 mm
Internal dimensions (L x W x H)	1110 × 1760 × 610 mm
Capacity	1275 liter
Sidewalls	Closed
Material	HDPE
Article number	4401.30.DUO-B1850.ZW
Weight (kg)	93 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Color	Grey
Bottom	Closed, reinforced
Max. load capacity per box	500 kg

Properties

- **This XL BIG BOX is widened and composed of two BIG BOXES**
- **The boxes are divided to the required size, then connected and welded on the inside and outside**
- **Size 1200 x 1850 x H 955 mm - 1275 liter**
- **With closed side walls and base, with convex side walls for extra internal volume**
- **Designed with 5 transverse pallet skids fitted with 7 swivel castors**
- **The swivel castors are designed with galvanised forks and Ø 125 mm wheels - with rubber tread**
- **Load capacity 500 kg - evenly distributed; with inherently stable load goods (no liquids)**
- **Suitable for direct contact with unpackaged foodstuffs (food-proof)**
- **Our XL-size BIG BOXES are extremely suitable for heavy and intensive use**
- **BIG BOXES in XL format are of course rim-stackable**
- **With outlet facility (1" and 2") on all sides**
- **Options: lid - 1" screw plug - 2" screw plug - check taps - printing - QR codes and barcodes - colours - additional skid reinforcements - perforated**

Description

Our BIG BOX

The BIG BOX is a particularly robust plastic pallet box that is also highly versatile. Thanks to its excellent product properties, this pallet box series has been introduced to the market in many different versions - and with great success.

Mobile BIG BOX in widened version

The product variant shown here is a mobile, widened version, meaning it is a custom-made box. This widened version is composed of two pallet boxes that are very solidly mounted and welded together across the width - exactly in the required format. In addition, the box is fitted with 7 smooth-running swivel castors - for good support and optimal manoeuvrability.

Applications

The sectors in which XL-size pallet boxes are used are very diverse. In all cases, however, it involves the storage or transport of long goods or bulky goods. The correct box size is important here, suitable for that one specific application. Transoplast has developed a wide range of XL pallet boxes as custom-made solutions. The choice is therefore already particularly extensive. Should your required size still not be listed, please contact our product specialists; they will be happy to help you.
